

# Hi 🙋, I'm Manish Mehta

**B.Tech CSE (Data Science) Student | Machine Learning Enthusiast | Java Developer**

I'm a Computer Science student passionate about building real-world applications using Machine Learning, Data Analytics, and Software Development.

I enjoy solving challenging problems, learning new technologies, and creating projects that combine data with practical business solutions.

## 🔗 About Me

- 🎓 B.Tech in Computer Science Engineering (Data Science)
- 🏢 Currently learning Machine Learning and building end-to-end projects
- 📦 Strong interest in Data Science, Backend Development, and AI
- 🔧 Solved 140+ Data Structures & Algorithms problems
- 🎯 Goal: Secure a Software Engineering or Data Science role and continue building impactful products

## 🔧 Tech Stack

### Languages

- Java
- Python
- SQL

### Data Science

- Pandas
- NumPy
- Scikit-learn
- Matplotlib
- Plotly

### Databases

- MySQL

### Tools

- Git
- GitHub
- Jupyter Notebook
- Google Colab
- VS Code
- Streamlit

## 🚀 Featured Projects

### 🏢 Customer Churn Prediction

End-to-end machine learning project predicting telecom customer churn — covering EDA, data cleaning, feature engineering (encoding, tenure grouping, spend aggregation), class imbalance handling, and model comparison across Logistic Regression, Random Forest, and XGBoost. Logistic Regression was selected as the final model for its interpretability and strong performance (ROC-AUC ~0.84).

🔗 [github.com/mehtamanish9/Customer\\_Churn\\_analysis](#)

### 🏢 Employee Management System

Java desktop application (Swing, MVC architecture) for managing employee records with full CRUD operations.

🔗 [github.com/mehtamanish9/Employee-Management-System](#)

### 🏥 Disease Prediction System

Machine learning project that predicts likely diseases based on user-reported symptoms.

## 📖 Currently Learning

- Machine Learning
- Feature Engineering
- Model Deployment
- Streamlit
- SQL Optimization
- Data Visualization

## 🎯 2026 Goals

- Build 5 production-quality data science projects
  - Master Machine Learning fundamentals
  - Strengthen Data Structures & Algorithms
  - Learn cloud deployment basics
  - Contribute to open-source projects
-
